

THE INVISIBLE SUCCESS !

“Sports has the power to change the world by inspiring and uniting the people”
- Nelson Mandela

Silver jubilee celebration of NLT one day football tournament became a successful and historical event in our community after long twenty four years. Even though it showed, visibly, as an entertainment for our people on the day of Easter, it did not fail to educate us about certain invisible features of its success to be considered and concerned.

Primarily, this occasion was a courtesy call or invitation for each and every member of our community for unity. In my childhood, I heard and even witnessed that some of our fore fathers used to set a deadline on Easter or Christmas day for fighting between families or groups like barbarians by throwing stones to each other and shedding blood brutally in the road or at the beach. However, nowadays, the trend has changed completely and the Pius XI HSS football ground accommodated thousands of football lovers to enjoy the game by screaming, shouting, expecting, disappointing, clapping as well as applauding with sportive spirit and community identity during day and night. This displayed a remarkable social development of our fishermen community and added a glory to this tournament by becoming as eye-opener to others too.
